# KYF SERIES

## Main features

- To meet the market requirements of KYF series of fabric needle are elevated for the clients to from 2 to 12 lines concurrent weaving; from the smallest width 3mm to the maximum width of 110mm; various thickness from gauze tape to heavy tape. Responding to the requirement of the clients, machines various widths are designed to coordinate with the factory and product.
- Precision-processed materials, solid and practical for enduring year round service. Intensive quality of machine in low depreciation is provided to generate high economic efficiency for the clients.
- Automatic lubrication device and automatic tension feeding system provide effective control over high quality of fabric while saving time and labor for the user.
- Using drive belt and change gear to perform stabilized transmission of bottom weft and hence providing wider range of fabrics which is more superior in quality.
- Convertible machine parts supported with various devices to provide wider range of fabrics multi-requirement for single machine as well.
- For width 880mm type machine, heald frame in double-load, double shedding lever, twin pattern chain transmission, configuration of shaft and gears have been reinforced.

KYF6/45

KYF2/110

KYF10/30
